Dept. Of ECE organized a three day APJ Abdul Kalam technological university sponsored faculty development program on "security aspects in communication systems " during 22 nd July to 24 th July. The programme was inaugurated by Dr.Ciza Thomas, senior Joint director, DTE, Tvm. The main objective of the course was to make the aspiring engineers acquainted with the theory and latest technologies used in secure communication. The FDP included different sessions on cybersecurity, cyber forensics, cryptography, image security and error control coding handled by experts on the subject from industry and other reputed institutions.
